Any treatment of a horse which involves the puncture or incision of the skin or insertion of any instrument or foreign material into the body is considered Invasive Treatment. (Exceptions to the rule would be the administration of oral electrolytes or acupuncture.) Any metabolic condition diagnosed in a horse which has failed to qualify that left untreated would compromise or threaten the welfare of the Horse would be considered a condition requiring Invasive Treatment. It is the responsibility of the FVD and the Treatment Veterinarian to review, on a case by case basis, the treated Horses at the end of an event and classify each case that is immediate Invasive Treatment, incurring mandatory rest, or authorized treatment not incurring mandatory rest.

If a Horse has failed to qualify for metabolic reasons which require immediate invasive treatment at any CEI or National Event in a rolling year, it must be given a mandatory rest period as below before it is again eligible to participate in a FEI or National competition.

Invasive Treatment 1st Incident 60 days in total

Penalty points are accumulated from the first penalty rolling forward for a period of 12 months. Thereafter on the first anniversary of each point penalty such penalty is dropped from the running total.

100 penalty points will result in an automatic two month suspension period. After such suspension the points total is reduced to zero.

Each metabolic elimination results in 10 penalty points.

If a Horse is eliminated for a metabolic reason that requires immediate invasive treatment the Athlete concerned will receive 25 penalty points.

If a Horse suffers a Catastrophic Injury during an FEI Competition the Athlete concerned will receive 80 penalty points.
